

MY CHIROPRACTIC STORY

By: Ione B, age 76

1. What health concerns brought you into the clinic?

Allergies, I am allergic to anything growing green. Plants, trees & cactus. Sinuses were bad, always stuffed and running.

2. Describe how doctors and staff took care of you here.

Kami started A/SERT treatments with tuning forks, laser, and other equipment. I started feeling better after 2 or 3 treatments. All staff members are very caring.

3. What progress have you made since you started chiropractic care?

I have completed 20 of the 25 treatments and I feel 95% better than I have for years. No more medication for allergies, just Dr. Jodi's suggested supplements. I am 76 years old and feel great.

4. How were you referred to our office?

By a friend (Mary Meisner) she suggested a foot bath and treatment by Dr. Jodi. My husband and I make semi-monthly visits and will continue to do so.

5. What advice would you give somebody with the same condition?

I highly recommend this office for allergy problems, chiropractic and nutrition.
