

MY CHIROPRACTIC STORY

by: Angie S. age 42

1. What health concerns brought you into the clinic?

I had no energy, my body hurt and was stiff when I would wake up in the morning. I also have had a problem with constipation all of my life. I was gradually putting on weight.

2. Describe how doctors and staff took care of you here.

I first came here seeking employment. Dr. Jodi, Tina and Kami are the best. To start Dr. Jodi eliminated certain foods from my diet for 30 days, I started taking supplements to aid in my digestion of food and then I started the FLT (First Line Therapy) Program with Kami.

3. What progress have you made since you started chiropractic care?

My energy level is back where it should be, I no longer feel 90 years old when I get out of bed and I have dropped 40+ pounds. Oh, and the constipation problem-----FIXED. Nobody likes talking about their bowel movements but when you go for Days without one it is very uncomfortable.

4. How were you referred to our office?

I am an employee, THANKFULLY 😊

5. What advice would you give somebody with the same condition?

Come to Judge Chiropractic for whatever symptoms you may have. Through
