

My Chiropractic Story by: Bridget S and Christian W

1- The health concerns that brought my grandson Christian into Dr. Jodi's office was serious canker sores inside his mouth and also might I mention he is 2 years old so therefore this was VERY painful with no way to really communicate but to cry A LOT!!!

I have been seeing Dr. Jodi for a couple years now so I thought well Chiropractic really doesn't involve this but let's just see. I brought him in and Dr. Jodi lasered his mouth and also he had another laser treatment the next day and also a detox foot bath and wham-o after the first treatment he cried a lot less, after the second one the very next day the sores were almost gone and he was eating and drinking again almost normally. He continued his treatments and foot baths and adjustments as well and to this day he has not had any reoccurrence of sores and he is healthy. The laser treatment really AMAZED me and I am a true believer in this treatment as well as all the treatments Dr. Jodi recommends.

2- The staff is A-1 Superior, they are kind, compassionate and helpful, not to mention everyone working here has a sense of humor and when I leave this office I am ALWAYS smiling. Dr. Jodi has an awesome personality and put's everyone at ease, and also I always feel there is nothing she can't deal with health wise she has always been on target, and if there was a question by the next visit she would have the answer.

- 4- I was referred here by a girlfriend who fell off the highest bleachers at a football game that her son was playing in. She was rocked by the way she recovered, and amazed there was no real damage after Dr. Jodi was done. This girlfriend has since moved to Minnesota and seriously misses Dr. Jodi, she has not found anyone like her anywhere there.

- 5- Advice: SIMPLY make sure you continue to come here at least once a month after your issues are resolved there is so much Dr. Jodi can help with, not only bones, but muscles, and organs, and even emotions... She is amazing !!!!!!!
So is the Staff here, they are all so amazing, it's the most comfortable place I have ever come for health related reasons!!
